6516208754.txt is this really a good use of my tax \$\$. i think not! if i so choose to pay for a service, i should be able to get any information that is freely available to me by local media. let's see, i get 200+ tv stations, but only 1 abc, 1 fox, 1 nbc and 1 cbs because if i got 2 then i might watch the other station.
